Hyperion Track

Title	Why Groovy is Game Changing
Presenter(s)	Kyle Goodfriend, Huron Consulting Group
<u>Abstract</u>	
<p>Groovy is a game changer. It improves performance, allows for proactive user validation, can interact with the user in ways we haven't been able to since the introduction of SmartView.</p> <p>This session will provide an overview of Groovy functionality, including mind blowing performance improvements, how to interact with the planners, pre-form save validation, and changing the form visuals. The session will take the attendees from start to finish on the basics of Groovy with interactive code reviews and live demos.</p> <p>Attendees will leave this session with the knowledge and examples that will enable them to go back to their environments and implement Groovy calculations to take advantage of ground breaking advancements in the technology. These scripts improved calculations, data pushes, and consolidations by 98% in a real client application.</p>	

Title	Tired of using Ordinary Business Rules? Here's how to give your Business Rules Super Powers.
Presenter(s)	John Taylor, Vertical Edge
<u>Abstract</u>	
<p>Business Rules are an integral part of any EPM Solution for Planning, Consolidation, or Reporting. In order to provide the right solution to end-users you need to have Business Rules with logic that is powerful, flexible, and fast. This isn't always an easy feat to achieve. In this session we will dive into Business Rules and present the features that may be missing or overlooked, but can be a big advantage in taking your application from Ordinary to Extraordinary. Join this session as we share tips, tricks, and best practices on writing Business Rules.</p>	

Title	How to successfully perform a Calendar Change in an HFM application
Presenters(s)	Jill Baker, YUM Brands
<u>Abstract</u>	
<p>Companies change their fiscal calendars for various business or legal reasons.</p> <ul style="list-style-type: none"> • What needs to be done to the HFM application to reflect the new calendar? • How are you going to do it? • What should you expect? <p>In this session, let Yum Brands share with you their experience and insights from a recent Fiscal Calendar Change project. They will walk you through the technical aspects of changing the calendar within HFM (including the impact on FDM, HFM Metadata, Rules, Member Lists, etc.), and the non-technical aspects of considerations for converting related historical data and journals.</p>
